

The CFA Society Liechtenstein

As one of more than 160 CFA Societies worldwide, the CFA Society Liechtenstein is part of a global network under the umbrella of the CFA Institute.

The members - locally in Liechtenstein as well as globally - come from all functions of the financial industry. With this unique network across all financial market players, the CFA Society promotes lifelong learning, advocates the highest ethical standards in the financial centre and promotes transparency and integrity in the financial markets through various initiatives.

The CFA Society Liechtenstein is committed to:

- ethical and professional standards within the investment industry
- encouraging professional development through the CFA Program and continuing education
- facilitating the exchange of information and opinions among people within the local investment community and beyond, and
- working to further the public's understanding of the CFA designation and investment industry.

The CFA Charter is the global standard among financial education. With the "ESG Certificate", the CFA Society promotes and standardises know-how for sustainable investing. The Society regularly organises lectures and events on current financial market topics as well as ethics workshops for financial market players.

The CFA Society Liechtenstein is an association of local investment professionals, consisting of portfolio managers, investment advisors, educators and other financial professionals from Liechtenstein, Eastern Switzerland and Vorarlberg. As one of CFA Institute member societies, our society connects members to a global network of investment professionals.
