Thinking in generations

The CFA Society Liechtenstein

As one of more than 160 CFA Societies worldwide, the CFA Society Liechtenstein is part of a global network under the umbrella of the CFA Institute.

The CFA Society Liechtenstein is an association of investment professionals who live and work in Liechtenstein and the wider region. It connects its members with an international community of investment professionals.

Worldwide, CFA organisations number over 200,000 members who work across all areas of the financial sector, from asset management and research to risk management and regulation.

The CFA Society Liechtenstein is committed to:

- Professional development through the CFA programme and continuous professional development
- The exchange of information and views among stakeholders in the financial industry
- Educating the public on financial market and investment issues
- Promoting ethical and professional standards within the financial sector

The CFA Charter is an internationally recognised mark of professional excellence. To be awarded the charter, candidates must pass all three exams and have several years of relevant practical experience in the financial sector.

In addition, the CFA Institute offers a range of other training programmes, such as

- Private Markets
- Investment Foundations
- Certificate in Investment Performance Measurement
- Sustainable Investing

The CFA Society Liechtenstein regularly organises lectures, specialist events and discussion forums on current developments and issues in the global financial markets.
